WINES & TASTING NOTES

Bù Cabernet Sauvignon displays a deep ruby-red colour with aromas of blackberry, black currant and black cherry, complemented by toasted oak and brown spice notes. This wine bursts with dark, concentrated black fruit flavours, supported by a rich mouthfeel, balanced acidity, generous tannins and a long, lingering finish. Pairs beautifully with grilled meats, burgers, barbecued ribs and pizza.

Bù Chardonnay features notes of pear, grilled pineapple, brown spice and caramel with a nice richness in the mouth and a creamy texture and finish. Pairs nicely with grilled chicken, roasted turkey, creamy pasta dishes, seafood with butter or cream sauces.

HOW TO CONVERT CUSTOMERS

IWSC Accolade Stickers

The IWSC is one of the world's oldest and most respected competitions - often called the "Olympics of the drinks industry". Each year, we evaluate over 12,000 entries from more than 90 countries. With 90% of our judges' active buyers and industry leaders, an IWSC medal isn't a participation trophy - it's recognition by the people who shape markets and set global trends.

- 1 roll (~60 stickers) – 92 Point Silver Sticker

What does Silver award mean?

P8 Important Information

Wine Rack POP Toolkit

We have created a new toolkit that contains all seasonal and monthly POP materials sent to stores.

Why?

- We continue to receive requests from staff for POP materials using incorrect names, even though the materials are identified in the Impact.
- This toolkit is designed to help educate store teams on POP tool names and proper naming conventions, reducing the need for follow-up emails and clarification when requesting replacement materials.

Action: All employees must review this document and become familiar with each POP tool and its proper name.

We have also posted the **Q2 POP Distribution List**, organized by District Manager. This list is provided for **visibility and verification purposes only** and should **not be edited by stores**. If you believe a change to your store's POP distribution is required, please email your District Manager outlining the specific request and the business rationale behind it.

Reminder: Additional POP materials may be requested on a **case-by-case basis** where there is a demonstrated business need, such as driving sales, supporting promotional activity, or filling display space.

Why?

- We continue to receive missing POP submissions for materials that are not allocated to specific stores.
- While POP allocations were reviewed with stores by DMs during Q2, this list provides a quick reference for store teams to verify which materials their location should receive.
- Store teams should review the distribution list when unloading POP shipments and completing their POP checklist. Before submitting a missing POP form, please confirm that the material is allocated to your store.

Action: All staff responsible for unloading, verifying, and submitting POP each period must review this document during the POP receiving process. Both documents are available on the **POP page in Speakeasy**.

IMPORTANT

An initial printed copy of the Wine Rack POP Toolkit will be included in each store’s P8 POP shipment.

Any future updates, as well as replacement copies required due to loss or damage, will be the responsibility of the store to print and maintain.
