VINTAGE INK

TEQUILA BARREL SAUVIGNON BLANC

VQA Niagara Peninsula VQA | 2021

HOW WE MADE IT

The fruit for the Sauv Blanc comes from various vineyards in Niagara on the lake and was harvested with ripe, classic varietal expression. The barrel portion of the blend was fermented and aged in tequila barrels and the balance of the blend was fermented in stainless steel with select Sauvignon Blanc yeast strains at 16C for 10 days. Aditional lees contact of around 3 months helps to add weight and texture to the palate.

WHAT IT TASTES LIKE

This wine has aromas of passion fruit puree, pineapple, guava, fresh coconut, and hints of white pepper and floral notes on the nose. The palate carries through with passion fruit, pineapple, and coconut predominating. It is full in body with the weight and mouthfeel being elevated from the tequila barrels.

WHAT IT GOES WITH

Try this wine with wood-fired pizza topped with ham and pineapple, grilled octopus salad, Brie and pear panini, as well as tropical fruit salad.

TECHNICAL STUFF

Alcohol	13.5%	**Total Acidity**	6.5 g/L

FY27 Holiday Thematic

The Houses

To create a festive and eye-catching holiday display, stores will receive a set of three themed case stackers and header cards, each designed to resemble a unique holiday house. Together, the displays create a charming holiday village that encourages customers to shop across multiple wine categories.

Red House
- Merchandise with red wines
- Designed with warm red tones and inspired by traditional brick homes

White House
- Merchandise with white wines
- Features light, neutral colours and a modern cottage-inspired design

Pink House
- Merchandise with sparkling and occasion wines
- Designed with festive pink accents and holiday décor elements

Stores may merchandise other varietals in the case stackers as needed to align with the products featured on the seasonal display.

The Windows

We'll have three displayers that each bring to life a fresh holiday-inspired moment inspired by red, white, and sparkling wine drinking occasions.

RED
To highlight our selections of red wines, our window will feature a lively gourmet holiday dinner party. Guests are gathered around a table enjoying a festive meal, with red wine being shared throughout the occasion.

WHITE
To showcase our white wine offerings, our window will feature a festive gathering of friends celebrating around a holiday setting. Guests are enjoying each other's company while sharing and pouring white wine.

SPARKLING
For our final window, our display will host a vibrant holiday party, complete with décor, celebration, and guests raising glasses of sparkling wine in a festive toast.

Holiday Mock House Display

This holiday season, boutique stores will receive **decorative mock houses** in place of the mock gift boxes used last year. These display pieces are an important part of the holiday thematic and are designed to create an engaging and interactive shopping experience for customers.

Stores are to **merchandise the mock houses on their designated end caps** and build product displays around each house according to the holiday thematic. Each house represents a different themed "window" within the overall holiday story.

Display Instructions:

- One side of each house features a **window cut-out** that allows customers to look through and view the image displayed on the back panel of the house.
- The **window cut-out side** should be positioned on **shelf rankings 1 and 2**, where customers can easily look through the window and experience the intended visual effect.
- The **reverse side** of the house contains only the image and does not have a window cut-out. These sides should be positioned on **shelf rankings 3, 4, and 5**, as the image would not be easily viewed through the window from these heights.
- **Please use your discretion.** If shelf rankings 1 and 2 are in a darker area of the store and the occasion image is difficult to see through the window cut-out, stores may display the **back side of the house (without the window cut-out)** instead to ensure the image remains visible to customers.
- If the mock house **does not fit on the end cap**, please merchandise it in another prominent location within the store where it can be safely displayed and remain visible to customers.

Please ensure the houses are positioned correctly to maximize visibility and create the intended holiday customer experience.

Important:

- Retain all mock houses after P9. Additional units will **not** be distributed for P10.
- Stores are required to **reuse these same display materials throughout both P9 and P10**.
- **Do not modify the houses to fit on a shelf.**
- Please handle all materials with care and store them appropriately when moving displays to ensure they remain in good condition for the duration of the holiday program.
